

Meet Our Education Ambassadors

"ROOMBA" SULCATA TORTOISE

Native to the African desert, sulcata tortoises are sold as tiny pets but grow over 180 pounds and often can't survive when abandoned. Roomba was found on a New Jersey golf course.

"TANK" EASTERN BOX TURTLE

Box turtles spend their lives in one small area, but Tank was taken from the wild and kept as a pet for many years. He can't return to the wild now.

"BIRCH & SPROUT" GRAY TREEFROG

Our two northern gray tree frogs are here for different reasons. Birch from illegal possession and Sprout has a permanent eye injury. We cannot safely release them back into the wild.

"BUDDY" RACCOON

Buddy arrived showing unusually "friendly" behavior, likely because he was habituated to humans at an early age. Without a known history, he cannot be released.

"CORNELIUS" CORN SNAKE

Cornelius came to us after being confiscated from illegal possession. We don't know if he was taken from the wild or captive-bred, so we cannot release him back into the wild.

"FOREST" AMERICAN TOAD

This toad was found with an eye injury that caused it to be unreleasable. Their dry, bumpy skin helps them blend into leaf litter on the forest floor.

"MONET" EASTERN PAINTED TURTLE

Monet was taken from the wild and kept as a pet for many years. Because he is now accustomed to people, he might not survive if released.

This event is rain or shine. It will only be cancelled by a weather disaster. Admission & sponsorship donations are non-refundable.
